

Bob,

I wanted to take a moment to say "Thank you" for the amazing product you have developed. As an auditor for a leading T.G.I. Friday's franchise in New Jersey and Pennsylvania, part of my job is to inspect every liquor bottle for contamination. Even though we were taking every possible precaution known to us, I was still finding contamination on a monthly basis. I had been dumping our profits down the drain. I received your flier in the mail and after inspecting a sample we decided to try them out. Shortly after seeing their effectiveness we incorporated your product in all 12 of our stores with great success. I have not seen a fruit fly since we started using The Nite Cap.

They work brilliantly!

Thanks again.
